INNOVATIVE ACADEMIC STRUCTURE

Buttressed by the rigorous commitment to cross-disciplinary academic collaboration in Clear Water Bay campus, HKUST(GZ) will advance the development of an interdisciplinary platform to the next level.

The four Hubs complement the four pillars of academic strengths established by HKUST and demonstrate a swift response to arising problems and needs in reality, thus creating a significant impact on the non-academic communities.

By virtue of the profound disciplinary foundation of HKUST, HKUST(GZ) has built a new academic structure featuring Hub and Thrust with the purposes of diverse growth of interdisciplinary education and knowledge transfer, as well as the cultivation of future-oriented talents through a variety of emerging programs.

HKUST(GZ) strives to leap across boundaries of traditional academic structure and organizations featured by rigid disciplinary divisions. HKUST(GZ) comprises four Hubs that serve as nexus among disciplines; under each Hub, there are a few Thrust Areas that represent some key emerging areas for directions and foci of research.

UNDERGRADUATE CULTIVATION MODE

Run-through Cultivation Mode

Duration 4 Years

Undergraduate students are recruited without admission into a specific program; they need to declare their program of study at the end of the second year.

Run-through Cultivation

HKUST(GZ) cultivates future-oriented and innovative talents through a run-through cultivation mode featured by Bachelor-MPhil Track: 5 years in general and Bachelor-PhD Track: 8 years in general.

College System

HKUST(GZ) adopts the collegiate system for its undergraduate education. Colleges serve the purpose of cultivation and prepare students socially for mature life. Within each college, students have the opportunity to meet academics from around the world and from a broad range of subjects, based on which a tutor system is implemented. Colleges, as a platform for cross-disciplinary enlightenment, complement students' academic growth in their professional fields. In short, each college is a community for students to live, study and conduct academic events, and a home for them physically and mentally.
